Testimony of Girl.

Basis for the serious accusation lies chiefly in the testimony of the girl, against whom appear many witnesses for the defense.

Ira Bayne was the first witness called. Her testimony was much like that given in the former hearing. She averred that the prisoner had made improper advances to her several times. On her cross-examination her testimony was considerably weakensed by her nervous hesitation and her lack of momory on certain points. A plentiful flow of tears came as a final relict.

A confirmed coffee-drinker, who found herself rapidly becoming a chronic invalid and was puzzled as to the cause, consuited her physician, and under his advice was cured without the use of drugs. She writes:

"After 20 years of coffee drinking I suddenly found that I was beginning to have trouble with my heart, papitations and a smothering sensation, and my occasional sick headaches were becoming an almost daily occurrence.

"I did not suspect that coffee had anything to do with it, and began to take medicines, but kept on drinking coffee.

"Finally my heart trouble and headaches grew so much worse and my increase became so shattered that any unusual noise would make me jump and shake all over, as if I had the agne. Medicines did not help me, and I could not do my housework satisfactorily, so I asked my physician if coffee was good for me.

The doctor was so emphatic I bought some, and had it carefully prepared according to directions on the box. I found the new beverage delicious and refreshing, and the craving for the old kind of coffee disappeared, and I grew very fond of Postum.

Some Expression of Appreciation.

The report of the meeting of the Teachors' Co-operative Association yesterday,
wherein it was stated that certain High
School teachers had opposed the adoption
of a resolution of thanks to those who
had aided in the movement to increase
the salaries of teachers, caused considteachers and others. As a matter of fact.
It is conceded that a High School teacher
did oppose the form of expressing appreciation, but it is asserted that she favored
appreciation.

The teacher in question declares that
the she did not approve of the plan proposed,
but was heartily in favor of extending
thanks for the increase. She states that
she was lif favor of almost any other plan
than that of preparing a formal set of
tresolutions in the name of the Teachers'
Co-operative Association, for the reason
that there are teachers not embraced in
this organization.

It is stated by another teacher that
there were only two High School teachers present at the meeting, whereas the
vote against the resolution was much
larger, thus showing that others than
High School teachers opposed the resolution finally adopted.

Gamma Chapter of Pi Mu Fraternity Has Celebration.

Gamma Chapter of the Pi Mu Fraternity held a banquet last night at the chapter house, No. 809 East Grace Street, in honor of the spring "godts," of whom a number were recently initiated into the fraternity. Several alumni members were present, among them heing Drs. Bassett, Walker, Bowman and Price. Mr. Horace Hosk'ins, a resident member and a student, acted as toastmaster, and in a most felletous manner introduced those who followed him.

The banquet was a very enjoyable affair. There were the usual college and fraternity songs and yells, and the young "goats" were made to feel very much at home.

The following poem, written by one of the members, was read at the banquet, and much enjoyed:

Were you ever a "goat?" Well then

To the monument he went, with spirits

While thus he pondered,

Whether a dread Pi Mu or an imp from hell,

"March, goat! Step high!" they began to sing. And put in his hand a bell to ring. They poured it on hard, they did their best—
